BLUESKY EDUCATION

BLUESKY IN NUMBERS

BE FUTURE READY WITH BLUESKY EDUCATION

BlueSky Education provides short term, skills-based programmes for students in Australia, Singapore, Malaysia, Vietnam, Japan and Philippines.

Our programmes are designed to make students ready for their future with a variety of courses which cater to skills needed in the years to come, whether that be learning about sustainable practices in our Sustainable Future programme, how to be business ready in our Business and Startups programme or how to become a fantastic speaker in our Public Speaking & Leadership programme. There is something for everyone at BlueSky Education and we want students to come away with not only better English skills but also life skills which they can take with them through life far after camp has ended.

Our flagship Public Speaking & Leadership programme is designed to give students an opportunity to develop public speaking skills and build confidence through hands-on learning and cultural immersion. In addition, we also offer bespoke courses for schools and groups. We can design a wide variety of programmes tailored to student group requests (minimum group size is typically required).

WHY CHOOSE US?

BlueSky Education's short courses are designed to provide life-long skills and enriching experiences for our students.

OUR COURSES:

Our flagship Public Speaking & Leadership programme focuses predominantly on verbal communication in English. In addition, we also have bespoke programmes such as Sustainable Future, Business and Startups, Local School Immersion, World of Science, STEM, Learning in Action, Multi city, University Go8, Half Day and Full Day Brother and Sister programmes in Australia. There is something for everyone at BlueSky Education!

SKILLS:

At the end of the course, students come away with not only an educational and cultural experience but also return home with life skills that they can take forward throughout their lives. Some of the skills students learn include presentation skills, leadership and teamwork, time management, confidence in communication, resourcefulness, responsibility, and how to be independent.

CULTURE:

Being open and embracing new cultures is an important part of life, especially as more and more people consider themselves citizens of the world. Students learn about local cultures, foods, religions and practices via varied excursions. Students also participate in cultural workshops and exchange programmes with local students (subject to availability).

ACCOMMODATION:

We can offer university and boarding school full-board accommodation, giving students an immersive study-abroad experience. Homestay options are also available in Australia to fully immerse students in local everyday life.

TEACHERS:

All teachers at BlueSky Education are qualified and experienced in their subject, ensuring that students get the most out of their classes. We also provide access to top university faculty members and students upon request.

BE FUTURE READY WITH BLUESKY EDUCATION

BlueSky Education students learn many new skills which will take them through life, from the classroom to the boardroom. The programmes we offer are all designed to get students thinking about their future and the challenges of tomorrow. Our culture driven courses open up students' minds to new and exciting possibilities.

LEARN NEW SKILLS FOR THE FUTURE:

-  Independence
-  Leadership Skills
-  Conversational English
-  Communicative Skills
-  Using Logic And Intuition
-  Teamwork
-  Presentational Skills

BE A GLOBAL CITIZEN & EXPLORE NEW CULTURES:

-  Immersive Cultural Experiences
 -  Participate In Culture Workshops
 -  Try Local Food
 -  Have Local Student Exchanges
 -  International Mix
- (depending on the time of year)
-  Gain Global Perspective

BE INSPIRED BY THE FUTURE / COURSES ON OFFER:

-  Public Speaking
-  Local School Immersion
-  Sustainable Future

-  STEM
-  Learning In Action
-  Multi City
-  World of Science

PLANNING FOR THE FUTURE:

-  Students Will Be Studying Abroad
-  Learning Subjects Of The Future
-  Getting Inspired For Further Study

ADDED VALUE ELEMENTS

At BlueSky Education we offer the chance to customise programmes to best fit your students. This allows you to offer students a premium service and stand out from other competitors with a unique and engaging programme. We offer the following as added value elements in all of our destinations (please check with us as they are subject to availability and some come with additional charges).

VIRTUAL PRE-LEARNING:

Students will have the opportunity to participate in a range of pre-trip virtual experiences to prepare them for their trip and generate excitement. From exchanges with local students and participants they will meet in the country, to English lessons, to workshops, BlueSky Education's pre-learning sessions offer a hybrid educational model guaranteed to give your students the best possible experience.

LOCAL EXCHANGES:

We organise sessions for students to interact with local native speaking students. This allows them to learn about local culture and university life, encourages them to make new friends, and collaborate on projects through formal classroom based exchanges or more informal games and activity based sessions. With our wide ranging global database of students from top universities, we can always build an exchange to suit your students' needs, virtually or in person.

COMPANY VISITS:

Our carefully-crafted company visits allow students to experience what it is like to be in the business world and become inspired by real life companies and businesspeople. Visits usually include an office tour and talk/workshop with the company's staff members but the exact visit itinerary varies from company to company. This trip is perfect for those slightly older students who are starting to think about their futures after school.

CHARITABLE VOLUNTEERING:

It is always great to encourage students to give back to their community. Therefore, some of our students choose to help out the local community with some volunteer work. Past sessions have included a beach clean-up, tree planting and helping out at an old aged care home to name a few. Engagement in community services boost our students' credentials as future leaders.

WORKSHOPS:

We offer workshops for students to understand more about the culture in which they are visiting.

- ENVIRONMENTAL WORKSHOP - During these sessions, students learn about the Australian environment. They also have the opportunity to learn about sustainable practices in place to make a better future for next generations.
- ABORIGINAL WORKSHOP - In this workshop, students have the opportunity to get to know about Australian First Nation people and culture, taking part on rituals, traditions and painting their own boomerangs to take home.

UNIVERSITY EXPERIENCE SESSIONS:

Give your students the opportunity to have a workshop, lecture or class from faculty members from some of the world's top universities and inspire them for future study! We have had lecturers from some of top universities such as Macquarie University in Sydney, University of Queensland in Brisbane, to name a few.

ADDITIONAL DAY TRIPS*

AUSTRALIA - Take a day out of the city to the famous Blue Mountains, Wollongong, or the Gold Coast and discover Australia's beauty.

*Some day trips are already part of our pre-designed schedule, if they are not, they may be subject to additional charges and minimum student group size.

LOCAL SCHOOL IMMERSION:

Include in your premium schedule a half day or full day visit to a local Australian Primary or Secondary School. Students will have the opportunity to experience what a day is like in a local Australian school, taking part in closed English lessons, taking part on the daily the school curriculum and school-based activities such as dancing, cooking, arts classes, to name a few, accompanied by the school students.

GUEST SPEAKERS:

We organise Guest Speaker sessions with PHD candidates, professors, company professionals, NGO volunteers and more. It allows students to learn further from specialised professionals and become inspired by real life professionals of any area of preference for the students group. This session is perfect for those slightly older students who are starting to think about their futures after school. The session usually includes a presentation from the specialist, Q&A session and fun hands-on activities.

AUSTRALIA - OVERVIEW

BLUESKY
EDUCATION
BE FUTURE READY

BLUESKY EDUCATION AUSTRALIA

Australia is without a doubt one of the most beautiful countries in the world. With its excellent weather, stunning beaches and friendly people, it is truly a modern paradise. Students can choose between Sydney, Melbourne, Brisbane, Adelaide and Perth for their BlueSky Education experience in any of the five cities for the most authentic Aussie experience!

World of Science

Science is an essential aspect of our daily lives and has contributed greatly to the development of our modern society. Through this programme, students will gain a basic understanding of the significance of scientific discoveries and inventions in the 21st century, educating them on how science contributes to our understanding of the world.

Multi City Programme

Our two-week multi city study tour programme is a transformative experience that marries education with cultural immersion. It underscores the importance of sustainable living and entrepreneurship in today's world. By fostering interactions with local students and showcasing the diverse landscapes of Melbourne and Sydney, this programme equips young minds with invaluable insights and shaping future global citizens.

Public Speaking & Leadership

This programme develops students' communicative English with our specially designed course focusing on student interaction, confidence, teamwork and public speaking. Lessons will be interactive and task-based, utilising multimedia to ensure the students are engaged. Students come away feeling confident in their English speaking ability. By the end of the course, students will perform a speech in English in front of their peers, teachers and local Australians. This programme prepares students for a future of social interaction and leadership, giving them the skills to thrive as they grow.

Halfday or Fullday Programme

Our half day and full day programmes give students the opportunity to immerse in the Australian education system, taking part on school-based activities on our local school visit across NSW state; explore into their academic future and experience one day of a vibrant campus culture with our Brother and Sister Campus Tour or visit the city's landmarks, shops and surroundings on our Brother and Sister City Tour while interacting with local university students.

Sustainable Future

Students learn about the amazing wildlife that Australia has to offer as well as focusing on the environmental impacts of human actions on our earth. Educate the next generation and encourage them to be the change that we need! Students learn real world skills and even design their own environmental action plans they can implement in their communities.

Go8 University Preparation

Australia has become one of the world's most popular study tour destinations with some of the most famous and desirable universities in the world. This is best exemplified by Australia's prestigious Group of 8 universities. Students learn the tips and tricks to get into these universities while visiting their campuses, meeting with local students and interacting with university faculty.

Learning in Action

Sustainable development goals are designed to be a "shared blueprint for peace and prosperity for people and the planet, now and into the future." We took this in mind when designing our unique Learning in Action Programme. Students will have the unique opportunity to learn SDG's concepts in action while exploring through our specialised excursions and workshops.

STEM

STEM is truly the future; in this STEM themed programme students engage in a broad survey of the arts and sciences in Australia, with a focus on local research and innovation. Students visit leading science centres in their area, attend talks with university faculty and industry leaders, and produce their own science projects at the end of the week.

Business and Startups

As one of the most livable nations in the world as well as an economic hub of the Asia Pacific, Australia is home to numerous global businesses as well as multiple startups. In this programme students get the opportunity to learn about the challenges of business in the 21st century through lessons, interactions with business leaders, company and incubator visits (subject to availability).

Local School Immersion

There is no better way to get the true Australian experience than living like a local student. BlueSky Education is able to place students at a range of government schools, giving them a true Aussie experience while offering our engaging excursions and 24 / 7 support.

EXCURSIONS AND ACTIVITIES

Experience a wide range of cultural, natural and educational excursions, workshops and tours across Sydney, Melbourne, Brisbane, Adelaide, and Perth. All activities focus on active, task based learning, so at BlueSky Education we are never just sightseeing!

EXCURSION HIGHLIGHTS INCLUDE:

University Visits

Visit Australia's oldest and most prestigious universities, tour the facilities, and interact with current students and faculty.

Interactions with Australian Students

Learn about Australia first hand through interactions with local high school and university students. Tour the city, participate in workshops, volunteer, play sports together, and even enjoy a BBQ on the beach.

Volunteer Opportunities

We offer a range of volunteer opportunities across Australia, beach and park clean ups, community service, and more.

Environment Workshops

Learn about various types of plastic from everyday life packages that we use and how we should and could replace them with more sustainable alternatives. Students work on their posters and present their solutions to class.

Aboriginal Arts and Culture Workshop

Learn about the unique beliefs, culture, arts and dances of Australia's first nation people. Students learn the language and their traditional dances, the symbolism of their art, get their faces painted and paint their own boomerangs to take home.

Company Visit

Visits some of Australia's major businesses or startups, tour their facilities and attend talks with business leaders to better understand business in the 21st century.

Farm Visits

Over 60% of Australia is covered by farms. Wherever we live in the world we rely on food that comes from farms. Gain an appreciation for this aspect of Australian life and learn first hand what it takes to keep us all fed.

Famous Landmarks

Australia is full of famous man-made and natural landmarks. Visit famous sites such as the Sydney Opera House, Harbour Bridge, Gold Coast, Melbourne's Laneways and so much more.

Zoo and Aquariums

Australia has over 100,000 known species of animals on the land and below the sea. Australia's famous zoos and aquariums, like Taronga Zoo, the Australia Zoo, and the Melbourne Aquarium are an excellent chance to get up close and personal with Australia's famous wildlife.

World Class Shopping

Australia is a fashion and culture powerhouse with shops that sell anything and everything, from high end boutique shops to massive markets, like Paddy's Market, Victoria Market and the Brisbane City Markets.

Museums

There is no shortage of museums in Australia from the Australian Museum, to the Melbourne Museum, Brisbane Museum, and more. Learn about Australia's rich historical, artistic, and cultural heritage.

AUSTRALIA SUSTAINABLE FUTURE

SUSTAINABLE FUTURE PROGRAMME

(BESPOKE PROGRAMME - GROUP ONLY)

Humanity's interaction with the environment is becoming of greater importance within our society. As the effects of climate change begin to bite, it becomes increasingly essential for the younger generation to have a strong understanding of this subject. Our Sustainable Future Programme in Australia provides an immersive learning experience that allows students to gain a comprehensive understanding of the environment and its impact on wildlife. We believe in teaching our students how to make informed decisions that will help protect the environment, while also instilling in them a sense of responsibility and respect to the world around us.

KEY HIGHLIGHTS OF SUSTAINABLE FUTURE PROGRAMME INCLUDE:

HOURS

- 15 hours per week of interactive classes showing what needs to live a Sustainable Future with fun and engaging teachers

LEARNING

- Focus on encouraging students to think critically about real world issues and work together to come up with new ways of thinking about the planet around us
- In class interactive group experiments

PRIZES

- Compete for top innovative idea on the "Cities of the Future" presentation and Talent Show prizes at Grand Finale Night

LOCAL INTERACTION

- Daily interaction with local university students
- Excursion learning through fun quizzes and interviews with locals

PRE AND POST CAMP

- Online Placement Test
- Academic Reports
- Certificates

AUSTRALIA BUSINESS & STARTUPS

BUSINESS & STARTUPS PROGRAMME

(BESPOKE PROGRAMME - GROUP ONLY)

Australia has become a centre of trade and innovation, not just in the Asia Pacific but across the globe. Its major cities are home to several multinational corporations and innovative new startups emerge everyday in incubation centres across the country. In this program students will gain a foundational knowledge in global business, covering the key concepts of choosing and creating a programme, as well as meeting with current and future leaders of the Australian business community.

KEY HIGHLIGHTS OF THE STARTUPS AND INNOVATION PROGRAMME:

HOURS

- 15 hours per week of interactive classes learning how to make Business and Startups plan and business-related terminology with fun and engaging teachers

LEARNING

- Subjects focus on practical, real-world knowledge and business concepts
- Students will get to test their new knowledge and skills during business pitching sessions

PRIZES

- Compete for top business pitch in a “Shark Tank” style and Talent Show prizes at Grand Finale Night

LOCAL INTERACTION

- Daily interaction with local university students
- Excursion learning through fun quizzes and interviews with locals

PRE AND POST CAMP

- Online Placement Test.
- Academic Reports
- Certificate

LOCAL SCHOOL IMMERSION PROGRAMME

AUSTRALIA LOCAL SCHOOL IMMERSION

(BESPOKE PROGRAMME - GROUP ONLY)

As part of the Australia Local School Immersion Programme students have the opportunity to study at a local school, getting the full Australian educational experience. Immersion Programme can vary in length from half a day, to 1 to 2 weeks, all the way up to an entire semester or school year. Local school immersion is carefully combined with BlueSky Education excursions for a powerful learning experience. Our unique content-rich programmes provide an unrivalled opportunity for students to see the world, develop their educational journeys, and gain invaluable cultural insight along the way. Invest in your student's success today.

We pride ourselves as an official partner of NSW Department of Education to lead study programmes to local public schools in New South Wales. We also work with various partners which enable us to arrange Australian government school visits nation wide.

KEY HIGHLIGHTS OF THE AUSTRALIA LOCAL SCHOOL IMMERSION INCLUDE:

- Interact with local students in and out of the classroom, a fantastic opportunity to meet similar aged students from a different country
- Attend real life Australian classes and participate in extra curriculums with local students, expanding learning techniques and understanding how other cultures conduct schooling in comparison to their native country
- Gain a deeper understanding of Australian culture from first hand experiences
- Build friendships that will last a lifetime
- For half day programmes, students will be able to attend classes with Australian students. This activity can replace one of BlueSky Education's current excursions as part of one of our main programmes, giving students the best of both worlds.
- For one day programmes, students will spend a morning touring the school, attending classes and hanging out with their new Aussie friends at lunch. In the afternoon, students will participate in specialised activities or enjoy entertainment provided by the Australian students
- For an extended multi-day immersion programme, students will attend ESL classes with Department of Education teachers. Classes can be focused on general English or a specialised topic. In the afternoon, students will attend lessons or take part in a local activity with the Australian students. If wanted, the afternoon session can be tailored to a group's preferences.

WORLD OF SCIENCE PROGRAMME

WORLD OF SCIENCE PROGRAMME

Our World of Science programme that brings modern science and inventions into the students' daily lives. Through collaborative discussions, analysis and experiments, this programme fosters a deeper understanding of the natural world, promotes scientific literacy, and encourages the next generation of scientists to tackle the world's most pressing challenges.

Apart from the students having the opportunity of exploring the city's main attractions, they will also have the opportunity to see science in action.

KEY HIGHLIGHTS OF THE WORLD OF SCIENCE PROGRAMME:

HOURS

- 15 hours per week of interactive classes discovering the World of Science through experiments with fun and engaging teachers.

LEARNING

- Gain understanding of the significance of scientific discoveries and inventions in the 21st century
- Focus on educating students on how science contributes to our understanding of the world
- Learn science through fun experiments

PRIZES

- Compete for top "Experiment Design" and Talent Show prizes at Grand Finale Night

LOCAL INTERACTION

- Daily interaction with local university students
- Excursion learning through fun quizzes and interviews with locals

PRE AND POST CAMPS

- Online Placement Test
- Academic Reports
- Certificates

STEM PROGRAMME

THE UNIVERSITY
OF QUEENSLAND
AUSTRALIA

STEM PROGRAMME

(BESPOKE PROGRAMME - GROUP ONLY)

STEM (Science, technology, engineering, and mathematics) is the fastest growing industry around the globe, with demand from employers increasing every year. In this course you will gain new skills and have unique experiences that will open new doors for you across the globe informed by Australia's unique environment. Be just like a real scientist and learn lifelong skills as you challenge yourself to think, design and build during this fun intensive course.

KEY HIGHLIGHTS OF THE SCIENCE, ENGINEERING AND THE ENVIRONMENT INCLUDE:

HOURS

- 15 hours per week of interactive classes covering a range of STEM topics with fun and engaging teachers

LEARNING

- Students will gain foundational knowledge in robotics, coding, engineering, physics, biodiversity, climatology and astronomy
- Focus on language specific to the sciences and fun in-class experiments

PRIZES

- Compete for top "Cities of Tomorrow" presentation and Talent Show prizes at Grand Finale Night

LOCAL INTERACTION

- Daily interaction with local university students
- Excursion learning through fun quizzes and interviews with locals

PRE AND POST CAMP

- Online Placement Test
- Academic Reports
- Certificate

AUSTRALIA PROGRAMME

HALF DAY/FULL DAY PROGRAMMES

NSW LOCAL SCHOOL IMMERSION PROGRAMME

Our half day and full day local school immersion across NSW state offers a unique opportunity for the students to immerse themselves in the Australian education system. Plan a day visit to an Elementary, a Secondary or a High School where students will foster cultural exchange, participate in classroom activities, meet teachers and fellow students, engage in extracurricular activities and get a glimpse of the school's facilities and culture.

HALF DAY OR FULL DAY PROGRAMME SAMPLE SCHEDULE

HALF DAY Sample Schedule (3 hours)

- Welcome
- Local school tour with local students
- School-based activities with local students
- Debrief, photo taking and farewell

FULL DAY Sample Schedule (6 hours)

- Welcome
- Local school visit tour with local students
- Classroom integration with local school students
- Lunch with local school students
- School-based activities with local students
- Debrief, photo taking and farewell

UNIVERSITY BROTHER & SISTER CAMPUS TOUR PROGRAMME

Embark on a half day or full day tour at top Universities nationwide. Students will explore into their academic future and experience one day of a vibrant campus culture. Walk through the picturesque pathways, central courtyard, magnificent buildings, art galleries, libraries, halls and more while interacting with local university students.

CAMPUS TOUR LOCATIONS & HALF DAY/FULL DAY PROGRAMME SAMPLE SCHEDULE

HALF DAY Sample Schedule (3 hours)

- Welcome
- Campus tour with local university students
- Team building activities on campus with local university students.
- Debrief, photo taking and farewell

FULL DAY Sample Schedule (6 hours)

- Welcome
- Campus tour with local university students
- Team building activities on campus with local university students.
- Lunch
- Exchange session with local university students
- Debrief, photo taking and farewell

SYDNEY

- University of Sydney
- University of New South Wales
- Macquarie University
- University of Technology Sydney
- Western Sydney University
- International College of Management Sydney (ICMS)

MELBOURNE

- University of Melbourne
- La Trobe University
- Monash University
- RMIT University

BRISBANE

- University of Queensland
- Griffith University

ADELAIDE

- University of Adelaide
- University of South Australia

PERTH

- University of Western Australia

UNIVERSITY BROTHER & SISTER CITY TOUR PROGRAMME

Enjoy a blend of education, exploration, shopping and fun on our half day or full day city tour in Sydney, Brisbane, Melbourne, Adelaide or Perth with local university students. As the group sets out to discover the cultural and historical treasures within the city's boundaries, the city becomes a living classroom, offering lessons in history, art, and sociology at every turn.

Wander through iconic landmarks such as the Harbour Bridge, the Opera House, the iconic Story Bridge, Brisbane Southbank, the Adelaide famous Oval or Perth beach and CBD. Immerse in local markets, museums, shops and more.

Conversations flow freely as they share their newfound knowledge with local university students, make lasting memories and interact with locals during educational activities.

HALF DAY OR FULL DAY PROGRAMME SAMPLE SCHEDULE

HALF DAY Sample Schedule (3 hours)

- Welcome
- City sightseeing tour with local university students
- Quiz and interview activities with local university students
- Debrief, photo taking and farewell

FULL DAY Sample Schedule (6 hours)

- Welcome
- City sightseeing tour with local university students
- Quiz and interview activities with local university students
- Lunch
- City sightseeing tour with local university students part II
- Debrief, photo taking and farewell

AUSTRALIA LEARNING IN ACTION

LEARNING IN ACTION PROGRAMME

(BESPOKE PROGRAMME - GROUP ONLY)

Our learning in action programme provides students with the best of both worlds when it comes to education and exploration. Students have the unique opportunity to have pre learning video calls with their teachers and future programme mates to understand the key concepts which will be covered in our Learning in Action programme. These concepts will be explored through our specialised excursions which encourage students to be independent learners and critical thinkers.

KEY HIGHLIGHTS OF THE LEARNING IN ACTION PROGRAMME:

HOURS

- 6 hours of online learning provided by teachers well versed in our chosen topics

LEARNING

- The focus will be on student led independent learning which is gently guided by our well designed excursions and activities
- A focus on key language and terminology needed to understand complex ideas explored in our excursions

PRIZES

- Compete for top "Learning in Action" presentation and Talent Show prizes at Grand Finale Night

LOCAL INTERACTION

- Daily interaction with local university students
- Excursion learning through fun quizzes and interviews with locals

PRE AND POST CAMP

- Online Placement Test
- Academic Reports
- Certificates

AUSTRALIA MULTI CITY PROGRAMME

MULTI CITY PROGRAMME

Experience the best of Australia's vibrant cities on our two-week multi city study tour programme. In the first week, immerse yourself in the cutting-edge world of sustainable living in Melbourne, where you'll engage in interactive workshops, connect with local students, learn about Australia's environmental conservation, and explore iconic landmarks. Then, venture to Sydney for a week focused on business and startups, hoping into the entrepreneurial spirit that defines this metropolis. Engage in Business discussions, gain insights into business plans, and enjoy a tour around Sydney. This unique journey combines education, cultural exchange, and unforgettable experiences, offering a comprehensive exploration of both Sustainable Future initiatives and Business & Startups ideas in two of Australia's most iconic cities.

KEY HIGHLIGHTS OF THE LEARNING IN ACTION PROGRAMME:

HOURS

- 15 hours per week of interactive classes showing what needs to live a Sustainable Future in Melbourne, learning how to make Business and Startups plan and business-related terminology in Sydney with fun and engaging teachers

LEARNING

- Focus on encouraging students to think critically about real world issues and work together to come up with new ways of thinking about the planet around us
- In class interactive group experiments
- Subjects focus on practical, real-world knowledge and business concepts
- Students will get to test their new knowledge and skills during business pitching sessions

PRIZES

- Compete for top business pitch in a "Shark Tank" style and Talent Show prizes at Grand Finale Night in Sydney

LOCAL INTERACTION

- Daily interaction with local university students in both cities
- Excursion learning through fun quizzes and interviews with locals

PRE AND POST CAMPS

- Online Placement Test
- Academic Reports
- Certificates

GROUP OF 8 UNIVERSITY PREPARATION PROGRAMME

(BESPOKE PROGRAMME - GROUP ONLY)

The Group of 8 (Go8) programme is designed for students who are looking into further study in Australia. This programme gives students the opportunity to experience several of Australia's top universities, speak with local students and faculty, and learn tips and tricks for admissions and academic success.

The Go8 was founded in 1999 and is a coalition of the top 8 research intensive universities in Australia. These selected universities are some of the oldest and largest in Australia and are consistently ranking in Australia's top universities and are recognised as being within the top 100 in the world rankings.

KEY HIGHLIGHTS OF THE GO8 PROGRAMME INCLUDE:

HOURS

- 15 hours of class per week

EXPERIENCE

- Students will have experience of lecture-style classes, and have the opportunity to practice critical note-taking skills

INTERVIEWS

- Mock interviews allow students to practice interview skills essential for university admissions and job applications

TEAM SKILLS

- Essential study skills will be covered in the course including critical thinking, discussion and debate, essay writing and referencing and presentation skills

UNIVERSITY LIFE

- Students will learn about cultural awareness, university life in Australia, internships, employment planning and budgeting

EXCURSIONS

- Programme includes visits to some of the most prestigious universities in Australia including the University of Sydney and the University of Melbourne. University visits will include a campus tour and a session from university staff about applying to the university as an overseas student (subject to availability). There will also be interaction sessions with university students.

GROUP OF 8 UNIVERSITIES:

- Australian National University
- Monash University
- The University of Melbourne
- The University of New South Wales
- The University of Queensland
- The University of Sydney
- The University of Western Australia
- The University of Adelaide

AUSTRALIA TESTIMONIALS & PARTNERSHIPS

AUSTRALIA TESTIMONIALS

“

The experience here at Australia during my time in BlueSky Education Local School Immersion programme helped me to understand the unique culture and learning experience different countries have. This also allowed me to understand some of the better methods in learning English as compared to local lessons in Japan. I would strongly recommend anyone who's looking to learn different culture, or looking to travel abroad to study to pick up this programme for you to have an understanding of different teaching and learning methods. I've also made friends and am still connected with them!

HIROMI, JAPAN

Sydney Local School Immersion Programme

“

The Bondi Beach experience with BlueSky Education was one of the most memorable experiences in my life as it felt like a real adventure. Not only did I get to experience the wonders of the Australian outdoors, but I also had the opportunity to meet new people and make friends. From fusion students to local Surfers, everyone was so welcoming. The activities hosted was competitive yet fulfilling, with lots to learn about the culture in Australia. I can honestly say that this was a wonderful experience and has lasting impression on me

PRAKASH, INDIA

Sydney Public Speaking Programme

“

I was skeptical at first about the programmes and activities offered when I first joined BlueSky Education because my parents sent me here. I am glad they did because not only was I able to build my confidence in communicating with others but I've also been more willing to participate in activities. This is thanks to the teachers, camp instructors and activities that was engaging and fun. The tours and games were also very entertaining! If you're looking for a good summer camp, you can consider BlueSky Education!

CHIHARU, JAPAN

Melbourne Public Speaking Programme

AUSTRALIA TESTIMONIALS

“

I've learnt a lot of things during the Sydney Wildlife camp that I wouldn't have learned in Taiwan. At the camp, I improved my English skills, learned many words that I did not know. Before, I was scared of interacting and conversing with others but during the camp we had a lot of tasks to use in English and talking to people. I also improved my piano skills. Our teacher Ms Chi was a music teacher and her piano skill was excellent. We played the piano together. I was very happy and excited. On the Finale day, we had a talent show and in preparation for it I practised piano every day. I am happy with the camp experience.

TSU WEN, TAIWAN

Sydney Environment & Wildlife Programme

“

My teacher is Ms Brianna. I love to study in her class because she is really comfortable and really friendly and one of my favorite classes was how to use humor in my public speech. I don't consider myself as a funny person and sometimes my speech can be quite boring but after her class, I learnt to use humor and improved my public speaking skills to be more interesting and exciting for the audience.

HUNG DANG, VIETNAM

Sydney Public Speaking Programme

“

My favourite activity was the visit to Bondi beach because it was very competitive and I had the chance to meet different kinds of students and friends, especially with the fusion students in Australia. It was very fun as it's also the first time we played this kind of sports, I think it is a very good game. I really enjoyed the view of the sea and the beach. I spent a lot of great time playing with my friends. I think the weather of Sydney is very suitable for a beach and I think that you will all love it when you go there.

GUESTS

Guests are not allowed

LOCATION

Host families are typically situated within a 30-60 minute commute from the study venue

COMMUTE

STUDENTS MAKE THEIR OWN WAY TO CLASS BY PUBLIC TRANSPORT.

SAFETY AND WELFARE

The safety of our staff and students is our highest concern, and numerous procedures are in place to ensure students are happy and healthy.

STAFF RECRUITMENT:

Staff undergo a strict recruitment procedure, including multiple interviews, reference and qualification checks, and police background checks.

CAMP COUNSELLORS:

Local University students with experience in outdoor programmes are hired to accompany the children during afternoon activities/excursions and evening activities.

STAFF TRAINING:

Staff training and induction is thorough, covering (but not limited to) first aid, safeguarding training and site-specific health and safety training.

STUDENT INDUCTION:

During student inductions, rules for on-site living and off-site trips are given to ensure student safety at the beginning of the course and then again before every excursion.

ACCOMMODATION GUIDELINES:

A member of first-aid trained staff is on-site at all times. Accommodation and classrooms have CCTV in operation. All our Campus accommodation partners have gated buildings.

EXCURSIONS:

During excursions, students are adequately supervised by BlueSky Education staff with strict staff to student ratios observed. A first-aid kit is taken on every excursion, and students are briefed before each trip of any location-specific dangers or irregularities.

Transportation is most of the time made by public transport and students are guided by our staff.

- Every student in excursion: ratio from student to BlueSky Education staff is 1:10

POLICIES:

Recruitment, safeguarding and health and safety policies, and risk assessments are available on the BlueSky Education website.

OUR TEACHERS:

Minimum of 3 years experience in the field.
