SINGAPORE & MALAYSIA PROGRAMMES

2024 – 2025

**BE FUTURE READY WITH
BLUESKY EDUCATION**

BLUESKY IN NUMBERS

BE FUTURE READY WITH BLUESKY EDUCATION

BlueSky Education provides short term, skills based programmes for students in Australia, Singapore, Malaysia, Vietnam, Japan and Philippines.

Our programmes are designed to make students ready for their future with a variety of courses which cater to skills needed in the years to come, whether that be learning how to code in our Robotics programme, how to be business ready in our Business Management programme or how to become a fantastic speaker in our Public Speaking & Leadership programme. There is something for everyone at BlueSky Education and we want students to come away with not only better English skills but also life skills which they can take with them through life far after camp has ended.

Our flagship Public Speaking & Leadership programme is designed to give students an opportunity to develop public speaking skills and build confidence through hands-on learning and cultural immersion. In addition, we also offer bespoke courses for schools and groups. We can design a wide variety of programmes tailored to student group requests (minimum group size is typically required).

WHY CHOOSE US?

BlueSky Education's short courses are designed to provide life-long skills and enriching experiences for our students.

OUR COURSES:

Our flagship Public Speaking & Leadership programme focuses predominantly on verbal communication in English. In addition, we also have bespoke programmes in each country ranging from Green Technology and Robotics in Singapore to Sustainable Future and STEM in Australia. There is something for everyone at BlueSky Education!

SKILLS:

At the end of the course, students come away with not only an educational and cultural experience but also return home with life skills that they can take forward throughout their lives. Some of the skills students learn include presentation skills, leadership and teamwork, time management, confidence in communication, resourcefulness, responsibility, and how to be independent. We even teach them basic first aid skills!

CULTURE:

Being open and embracing new cultures is an important part of life, especially as more and more people consider themselves citizens of the world. Students learn about local cultures, foods, religions and practices via varied excursions. Students also participate in cultural workshops and exchange programmes with local students (subject to availability).

ACCOMMODATION:

We can offer university and boarding school full-board accommodation, giving students an immersive study-abroad experience. Homestay options are also available in Australia to fully immerse students in local everyday life.

TEACHERS:

All teachers at BlueSky Education are qualified and experienced in their subject, ensuring that students get the most out of their classes. We also provide access to top university faculty members and students upon request.

BE FUTURE READY WITH BLUESKY EDUCATION

BlueSky Education students learn many new skills which will take them through life, from the classroom to the boardroom. The programmes we offer are all designed to get students thinking about their future and the challenges of tomorrow. Our culture driven courses open up students' minds to new and exciting possibilities.

LEARN NEW SKILLS FOR THE FUTURE:

-  Independence
-  Leadership Skills
-  Conversational English
-  Communicative Skills
-  Using Logic And Intuition
-  Teamwork
-  Project Management
-  Presentational Skills

PLANNING FOR THE FUTURE:

-  Students Will Be Studying Abroad
-  Learning Subjects Of The Future
-  Getting Inspired For Further Study

BE INSPIRED BY THE FUTURE / COURSES ON OFFER:

-  Public Speaking
-  Green Technology
-  Robotics
-  Sustainable Future
-  Esports
-  University Preparation
-  Business Management
-  STEM
-  Learning In Action
-  Medical

BE A GLOBAL CITIZEN & EXPLORE NEW CULTURES:

-  Immersive Cultural Experiences
 -  Participate In Culture Workshops
 -  Try Local Food
 -  Have Local Student Exchanges
 -  International Mix
- (depending on the time of year)
-  Gain Global Perspective

ADDED VALUE ELEMENTS

At BlueSky Education we offer the chance to customise programmes to best fit your students. This allows you to offer students a premium service and stand out from other competitors with a unique and engaging programme. We offer the following as added value elements in all of our destinations (please check with us as they are subject to availability and some come with additional charges).

VIRTUAL PRE-LEARNING:

Students will have the opportunity to participate in a range of pre-trip virtual experiences to prepare them for their trip and generate excitement. From exchanges with local students and participants they will meet in the country, to English lessons, to workshops, BlueSky Education's pre-learning sessions offer a hybrid educational model guaranteed to give your students the best possible experience.

LOCAL EXCHANGES:

We organise sessions for students to interact with local native speaking students. This allows them to learn about local culture and university life, encourages them to make new friends, and collaborate on projects through formal classroom based exchanges or more informal games and activity based sessions. With our wide ranging global database of students from top universities, we can always build an exchange to suit your students' needs, virtually or in person.

COMPANY VISITS:

Our carefully-crafted company visits allow students to experience what it is like to be in the business world and become inspired by real life companies and businesspeople. Visits usually include an office tour and talk/workshop with the company's staff members but the exact visit itinerary varies from company to company. This trip is perfect for those slightly older students who are starting to think about their futures after school.

CHARITABLE VOLUNTEERING:

It is always great to encourage students to give back to their community. Therefore, some of our students choose to help out the local community with some volunteer work. Past sessions have included a beach clean-up, tree planting and helping out at an old aged care home to name a few. Engagement in community services boost our students' credentials as future leaders.

WORKSHOPS:

In each destination we have workshops for students to understand more about the culture in which they are visiting.

- SINGAPORE - We are many different cultures in Singapore and we want to educate our students about all of them! We teach students about the different races, religions, festivals and food in Singapore as well as having them make their very own batik painting to take home which is native to the South East Asia region.

UNIVERSITY EXPERIENCE SESSIONS:

Give your students the opportunity to have a workshop, lecture or class from faculty members from some of the world's top universities and inspire them for future study! We have had lecturers from some of top universities such as National University of Singapore, to name a few.

ADDITIONAL DAY TRIPS*

SINGAPORE – For students who want a multi-country programme, take a day trip to Johor Bahru in Malaysia where students experience Malay cooking, dancing, culture and arts.

*Some day trips are already part of our pre-designed schedule, if they are not, they may be subject to additional charges and minimum student group size.

PROGRAMME CONTENT

SINGAPORE & MALAYSIA ON-SITE

- 9 Public Speaking & Leadership programme
- 12 Green Technology programme
- 15 Robotics programme
- 18 Startups & Innovation programme
- 21 Learning In Action programme
- 24 Singapore-Malaysia Cultural Experience programme
- 27 Parent-Child programme

SINGAPORE - OVERVIEW

BLUESKY
EDUCATION
BE FUTURE READY

BLUESKY IN SINGAPORE

Singapore is the perfect blend of East meets West, making it the ideal destination for students to visit if they are looking for something new and exciting. Singapore's official language is English. With it being a key player in all international business, the home to some of the World's Top Ranking Universities and a hub for connecting people across the globe. It is widely regarded as one of the safest, cleanest, greenest and most efficient cities in the world, providing a futuristic skyline to rival any other major city globally. If students are looking for something different that would open their minds to multiple cultures, foods and exciting new opportunities, then Singapore is the right destination.

Public Speaking & Leadership

This programme develops students' communicative English with our specially designed course focusing on student interaction, confidence, teamwork and public speaking. Lessons will be interactive and task-based, utilising multimedia to ensure the students are engaged. Students come away feeling confident in their English speaking ability. By the end of the course, students will perform a speech in English in front of their peers. This programme prepares students for a future of social interaction and leadership, giving them the skills to thrive as they grow.

Green Technology

Since Singapore is at the forefront of Green Technology. Our specially designed programme gives students the chance to learn about urban environments, water recycling, green energy and waste management, to name but a few. Tackling the world's environmental issues is going to become increasingly important over the coming years and we want our students to be at the forefront of these future developments.

StartUps & Innovation

As one of the most livable nations in the world as well as an economic hub of the Asia Pacific, Singapore is home to numerous global businesses as well as multiple startups. In this programme students get the opportunity to learn about the challenges of business in the 21st century through lessons, interactions with business leaders, and company and incubator visits.

Robotics

Students have the opportunity to learn the basics of coding taught by experienced teachers. Learning how to code a robot is something all students love no matter what their age! We understand that tech is the language of the future so it's great for students to be exposed to this from an early age, getting them ahead of the curve.

Singapore-Malaysia Cultural Experience

Give students the opportunity to experience not just one but two new countries! As well as choosing the content of your choice for the Singapore programme we offer the chance to go on a day trip to Johor Bahru in Malaysia. This gives students the opportunity to experience Malaysian cooking, dancing, culture and much more!

Parent-Child

For younger students we offer the chance for them to experience Singapore with their parents in hands on family classes designed to help encourage the bond between parent and child and create unforgettable memories.

SINGAPORE EXCURSIONS AND ACTIVITIES

Fun-filled excursions

There are many exciting, adventurous places for students to experience including Universal Studios, Adventure Cove Water Park, Singapore Zoo and optional Johor Bahru (Malaysia) day trip.

Famous landmarks

Singapore has many iconic landmarks for students to experience with their own eyes including the Merlion Park, Marina Bay Sands and Gardens by the bay.

Sports & activities

There is never a dull moment at camp with our fun filled activities including sports day, shopping trips to Orchard road, scavenger hunt games, BBQ dinner party on the beach & Race Against Time

Educational visits

For excursions with a more academic focus students explore the National University of Singapore, Singapore Science Centre, National Museum and have the opportunity to interact in our local student exchanges. These exchanges offer the chance to speak with locals, practice English with native speakers and learn about the country from people who live there.

Stimulating evening activities

Evenings are also filled with activities for students to make sure they are getting the most out of their camp experience. Activities include quiz night, games night, movie night, team-building exercises and even basic first aid skills!

Cultural appreciation

Singapore is a melting pot of different cultures. Students can visit Chinatown, Arab Street and Little India to experience the food, shopping and atmosphere of these vastly unique areas. Students also take part in a Singapore culture workshop so they can understand the importance of cultural appreciation in Singapore and try their hand at batik painting.

SINGAPORE PUBLIC SPEAKING & LEADERSHIP

PUBLIC SPEAKING & LEADERSHIP PROGRAMME

Public speaking & leadership are two skills which are relevant not only in English but in every language around the world. If you can master these skills then it will open up many more opportunities for students to experience in the future.

KEY HIGHLIGHTS OF PUBLIC SPEAKING & LEADERSHIP PROGRAMME INCLUDE:

HOURS

- 15 hours of interactive classes per week with fun and engaging teachers

FOCUS

- Focus on communicative English and improving students' confidence in speaking

PRIZES

- Compete for top Public Speaking and Talent Show prizes at Grand Finale Night

PLACEMENT TEST

- Placement test given on the first day to ensure students are in the correct class

EXPERIENCE

- University and boarding school full-board accommodation, giving students a study-abroad experience all year round

EXCURSIONS

- Learn about local cultures via varied excursions. Students also participate in cultural workshops and exchange programmes with local students*

ATTRACTIONS

- Visit the infamous Gardens by the Bay and Merlion, two of Singapore's most iconic attractions

REPORTS

- Personalised attention to students with daily journals and individual academic reports after the programme is finished

CAMPUS STAY SCHEDULE - 2 WEEKS

WEEK 1

BE FUTURE READY

SINGAPORE GREEN TECHNOLOGY

GREEN TECHNOLOGY PROGRAMME

(BESPOKE PROGRAMME - GROUP ONLY)

Singapore has been at the forefront of research into environmental regulation, environmental technologies and sustainability for over 40 years. This is why Singapore is the perfect place for students to come and learn about how the development of green technology impacts the environment, helps climate changes and can help create a more sustainable planet.

KEY HIGHLIGHTS OF THE GREEN TECHNOLOGY PROGRAMME INCLUDE:

HOURS

- 15 hours of class time per week

TEACHERS

- Teachers with backgrounds in the field of Science education

EDUCATION

- Educating students in multiple areas of green technology such as renewable energies, water recycling, urban farming, waste management, biodiversity and cities of the future

LEARNING

- Mixture of classroom-based learning and hands on activities and experiments to create an engaging environment for students

EXPERIMENTS

- Experiments include making wind powered cars, planting seeds, hand made water filtration system, creating solar panels out of pizza boxes and many more!

EXCURSIONS

- Excursion to a Hi-Tech farm shows students' first-hand how food is grown in an urban environment in an interactive and hands on tour given by professionals in the business

GROUP PROJECT

- Throughout the course students work on a group project focusing on 'Cities of the Future'. They must create their own 3D city using recycled materials and give a presentation to the class about what they have created. This encourages them to practice their English presentation skills as well as consolidate the knowledge they have acquired during the course.

SINGAPORE ROBOTICS PROGRAMME

ROBOTICS PROGRAMME

(BESPOKE PROGRAMME - GROUP ONLY)

Robots are changing the world and Singapore is driving the revolution. As our global society becomes more and more mechanised, there will be an increasingly large demand for people who are skilled in robotics. This programme is designed to introduce students to the world of coding and robotics, hopefully inspiring them to pursue this line of study in the years to come.

KEY HIGHLIGHTS OF THE ROBOTICS PROGRAMME INCLUDE:

HOURS

- 15 hours of class time per week

FUN & CODING

- Fun & hands-on coding practice and exercises

DIFFERENT PLATFORMS

- We use different types of robots including mBots, microchip and raspberry, Lego Ev3 Mindstorm and Python depending on the groups level

LEARNING

- Each student pair has their own laptop and robot in order to make sure each student has as much hands-on experience as possible

PROGRAMMING

- Program robots to do simple and fun tasks such as moving in circles, keeping game scores etc

IN-CLASS

- Mini-competitions

ALL LEVELS

- Difficulty level can be tailored to the knowledge of the group

FOR WHO?

- The course is perfect for students interested in STEM fields, so whether you dream of becoming a coder at Google or an Aerospace Technician at Boeing, your robotics path starts with BlueSky Education in Singapore

SINGAPORE STARTUPS & INNOVATION

STARTUPS & INNOVATION PROGRAMME

(BESPOKE PROGRAMME - GROUP ONLY)

Singapore has become a centre of trade and innovation, not just in the Asia Pacific but across the globe. Its major cities are home to several multinational corporations and innovative new startups emerge everyday in incubation centres across the country. In this program students will gain a foundational knowledge in global business, covering the key concepts of choosing and creating a programme, as well as meeting with current and future leaders of the Singapore business community.

KEY HIGHLIGHTS OF THE STARTUPS AND INNOVATION PROGRAMME:

HOURS

- 15 hours of interactive, business themed courses

KEY TOPICS

- Subjects focus on practical, real-world knowledge and concepts
- Programme culminates in a “shark tank” style business pitch which students will present on the final day before classmates and local business people

LANGUAGE

- Language focuses on practical, real-world knowledge and concepts in business activities

SKILLS

- Students will get to test their new knowledge and skills during business pitching sessions

UNIVERSITY LIFE

- Meet Singapore business students, learn first hand about what being a business major is like and build a business network for the future.

KNOWLEDGE

- Learn first hand about Singapore business culture through company visits
- Gain deeper understanding of entrepreneurship by visiting startup incubators

CLASSES

- Receive daily feedback from teachers, and feedback from members of the local business community on the final day

SINGAPORE LEARNING IN ACTION

LEARNING IN ACTION PROGRAMME

(BESPOKE PROGRAMME - GROUP ONLY)

Sustainable development goals are designed to be a “shared blueprint for peace and prosperity for people and the planet, now and into the future.” We took this in mind when designing our unique Learning in Action Programme. Our programme provides students with the best of both worlds when it comes to education and exploration. Students have the unique opportunity to have pre learning video calls with their teachers and future programme mates to understand the key concepts which will be covered in our Learning in Action programme. These concepts will be explored through our specialised excursions which focus on sustainable development goals. Our programme has students explore local facilities, centres, and campuses to see first hand how certain sustainable development goals are executed successfully. Students will be guided with learning materials to make the most out of their excursions, enabling them to actively learn in each location and gain the most from their trip.

KEY HIGHLIGHTS OF THE LEARNING IN ACTION PROGRAMME:

HOURS

- 6 hours of online learning provided by teachers well versed in our chosen topics, these can be done before or after the programme

FOCUS

- The focus will be on student led independent learning which is gently guided by our well designed excursions and activities

PRIZES

- Compete for top prizes with presentations and talents at our Grand Finale Night

PLACEMENT TEST

- Placement tests will be given before classes begin to ensure the students are placed in the correct class

LANGUAGE

- A focus on key language and terminology needed to understand complex ideas explored in our excursions

SPORT

- Students get to work together and engage in sports activities in our outdoor excursions

WORKSHOPS

- Students are able to learn about local culture with our unique culture workshops, allowing them to feel like global citizens and understand local cultures in a respectful and educational way

REPORTS

- Students will receive reports from their online teacher about the progress they have made in class
- Academic reports will be given after the programme is finished

SINGAPORE-MALAYSIA CULTURAL EXPERIENCE PROGRAMME

SINGAPORE-MALAYSIA CULTURAL EXPERIENCE PROGRAMME

(BESPOKE PROGRAMME - GROUP ONLY)

If going to Singapore isn't enough for your group then why not also go to Johor Bahru in Malaysia to make it a multi-country programme? From Singapore to Malaysia it only takes around 1 hour by coach - this hour is short in time but the difference in cultural experience on offer for students is large. This programme allows students to experience two countries and cultures within one trip.

KEY HIGHLIGHTS OF THE MULTI-COUNTRY PROGRAMMES INCLUDE:

VARIETY OF LESSONS

- Choice of any content from our Singapore programmes

BONUS

- Students can experience all of the benefits of our Singapore programme with an added bonus included.

MORE CULTURE

- During their excursion to Malaysia they will have the opportunity to learn about Malay culture, try Malaysian cooking, traditional dancing, have a city tour and also go shopping.

LEGOLAND

- Depending on the age of the students there is also an opportunity to go to Legoland.

GROUPS

- Our pre-designed schedule includes a two days to Johor Bahru however a longer duration in Malaysia is possible subject to minimum group size.

CAMPUS STAY SCHEDULE - 2 WEEKS

WEEK 1	TIME	DAY 1 (SUN)	DAY 2 (MON)	DAY 3 (TUES)	DAY 4 (WED)	DAY 5 (THURS)	DAY 6 (FRI)	DAY 7 (SAT)

SINGAPORE PROGRAMME HIGHLIGHTS

PARENT-CHILD PROGRAMME

(BESPOKE PROGRAMME - GROUP ONLY)

For students too young to attend our main programmes we offer the opportunity for parents to accompany their child in a course which helps improve family bonding as well as English.

KEY HIGHLIGHTS OF THE PARENT-CHILD PROGRAMME INCLUDE:

PREPARATION

- Give students the best chance of success by preparing them for future study in Singapore – a city which boasts a fantastic education system for young learners

FOR PARENTS

- Parents will be introduced to Singapore's modern teaching philosophy so that they may make the best decisions for their child

CHILDREN

- Children will benefit from an exciting and varied range of educational activities which includes reading, sports, art, science and music

OFFERS

- For parents, the course offers a series of enrichment workshops exploring Singapore's culture, education system, investments, and parenting

EXCURSIONS

- Afternoon excursions and workshops encourage bonding and shared experiences between parents and children

ACCOMMODATION

- We are lucky to partner with fantastic accommodation providers. Each family will reside in one of the following family-friendly resorts such as D'Resort, Changi Cove, Genting Hotel or Hotel Boss, among others. Hotel options are also available

LIMITS

- Min student age: 6 year old

RACE AGAINST TIME

SINGAPORE PROGRAMME HIGHLIGHT

What is Race Against Time? It is a leadership-based activity and city excursion that combines many of the skills that students will learn during their time at BlueSky. These include teamwork, logic, intuition, following instructions, confidence and speaking English.

WHAT WILL HAPPEN?

- Students are split into groups and each group has to complete a series of tasks across the city of Singapore. They are taught how to use the public transport and local currency and have to make their way to different points around the city to complete each task and win points.
- Examples of tasks would be asking members of the public a set of questions in English, creating a vlog about the place they are in, buying an item in the shop for \$5 and trying to sell it for more money etc.
- This activity gives students the freedom to explore the city at their own pace and discover all the different neighbourhoods and diverse cultures that Singapore has to offer
- All groups are accompanied by an adult for safety but the adults do not help them.
- Check-points include: Tiong Bahru, Raffles Place,

SINGAPORE TESTIMONIALS

“

Thanks for your and your colleagues' support, dedication and kindness to my daughter. We really appreciate that. Thanks especially to Dan [Centre Manager] who has spent significant time and effort dealing with my daughter on site.

KEN, JAPAN

Singapore Public Speaking Programme

“

Green Technology programme by BlueSky Education was really a good overall experience for me. I learned so much about sustainable energy and how renewable sources of energy can reduce our carbon footprint. The hands-on activities were easy to understand and really fun as well! I enjoyed the field trips to the vertical farms as it really helped us visualise the real-life applications of green technology. I feel like I have a much better understanding of environmental sustainability now, and I'm ready to make a difference in the world!

AZZOLINO, ITALY

Singapore Green Technology Programme

“

This programme has been quite interesting, especially for the possibility to see Singapore which was a city I have never been to and is quite diverse and full of amazing architectural buildings and constructions. Lessons have been quite interesting. It is interesting to meet people from such different backgrounds and from the real world. After this programme I feel a bit more aware of the working environment and maybe where I'm going to work. People have been very open and interested to tell you their experience.

FELICITA, ITALY

Singapore Public Speaking Programme

“

My English class is very fun, I learnt a lot there. My favourite part of the programme is when we went to attractions in Singapore, they are all very amazing and very fun. My teacher's name is Rodney. He is very kind, very funny and he speaks English very well. I learnt a lot from him. I learnt how to become more confident when I stand in front of a lot of people and how to use my body language better and how to describe things more clearly. I feel my public speaking has improved.

Singapore is a nice country, very clean, people are friendly and very beautiful, I love it. On the first day I am not really close to anyone but in the tour I made a lot of friends. They want to play with me and it was fun.

SAFETY AND WELFARE

The safety of our staff and students is our highest concern, and numerous procedures are in place to ensure students are happy and healthy.

STAFF RECRUITMENT: Staff undergo a strict recruitment procedure, including multiple interviews, reference and qualification checks, and police background checks.

CAMP COUNSELLORS: An average of 5-years experience in the Outdoor Programmes (both private and MOE programmes)

STAFF TRAINING: Staff training and induction is thorough, covering (but not limited to) first aid, safeguarding training and site-specific health and safety training.

STUDENT INDUCTION: During student inductions, rules for on-site living and off-site trips are given to ensure student safety at the beginning of the course and then again before every excursion.

ACCOMMODATION GUIDELINES: A member of first-aid trained staff is on-site at all times. Accommodation and classrooms have CCTV in operation. All our boarding schools partners have gated accommodation with the exception of **National University of Singapore (NUS)** which is an open campus and security staff are deployed at all of our accommodations 24 hours a day.

EXCURSIONS: During excursions, students are adequately supervised by BlueSky Education staff with strict staff to student ratios observed. A first-aid kit is taken on every excursion, and students are briefed before each trip of any location-specific dangers or irregularities.

We provide transportation between places with private coach however, there will be some public transportation experiences for students (20% of the excursion) is used in certain excursions and students are guided by our staff.

- Every student in excursion: ratio from student to BlueSky Education staff is 1:10, could be more if students are under 12 (1:8) & for students above 12, minimum (1:10)
- Including Group Leaders, ratio becomes 1:8 for older, 1:6 for younger (This ratio calculations includes Group Leaders and BlueSky Education Staff)

Students above 12 y/o	1 BlueSky Staff: 12 Students
Students under 12 y/o	1 BlueSky Staff: 10 Students

POLICIES: Recruitment, safeguarding and health and safety policies, and risk assessments are available on the BlueSky Education website.

OUR TEACHERS: Minimum of 3 years experience in the field. Can be local teachers from international schools, Ministry of Education schools/certified, university lecturers.
